Custom Boathouses

Oak Bay Marine Group has been a trusted leader in the marine industry for 50 years, and has built more custom boathouses than any other company in British Columbia.

- Features construction grade fir wall studs and STK full size 2" cedar decking, extending the life of the structure.
- Envirofloat, fully encapsulated styrofoam billets, do not deteriorate and are impervious to fuel and marine life.
- Rust free, zero-maintenance aluminum cladding is used in place of traditional steel, which rusts and erodes with time.
- Boathouses are available in lengths from 50'-92'.

We look forward to designing the right custom boathouse for you. Call us today: **250 245 4521**
